

# Scott & White Hospital & Clinics Clinical Research at Scott & White

Study Title: Health and Literacy in Child and Adult Assessment, Parent Proxy

Project ID#: 050077

Department: Pediatrics

Sponsor: National Institutes for Health in partnership with the University of North Carolina at Chapel Hill and Texas A&M University

Provide a brief synopsis of the study:

Condition(s):	Treatment(s):
Children with asthma, currently taking asthma medicine	Answer questions on the computer about health and asthma
Children without asthma	Answer questions on the computer about health

The goal research of this study is to test health and asthma questions on the computer. Children will answer questions about their own health. Parents will answer questions about their child's health. This study should take about 30 minutes.

With the information collected from this research study, a group of researchers will develop a computer program that creates an easier way for kids and teens to share information about their health and quality of life with their doctors.

2. Who is eligible to participate in the study (basic qualifications such as age, gender, etc.)?

Age	Gender
S&W patients ages 8-17 <u>and</u> their parent/guardian	Male and female
Parents/guardians of S&W patients ages 5-7	Male and female

All parents/guardians and kids/teens ages 8-17 must be able to read English and use a computer independently.

3. What may be involved/required for subject participation (visits, tests, and/or logs, etc.)?

- ☒ There is only one research study visit per child
- ☒ There is no clinical care associated with this research study. Subjects will not undergo any medical procedures or have any lab work done
- ☒ The Parent will answer questions about the child and his/her health on a computer
- ☒ The Child will answer questions about his/her health on a computer

---
